

Area of a Triangle

$$\text{Area} = \frac{1}{2} \times \text{base} \times \text{height}$$

$$\text{Area} = \frac{1}{2} \times \text{base} \times \text{height}$$

$$= \frac{1}{2} \times 10 \times 8$$

$$= \frac{1}{2} \times 80$$

$$= 40\text{cm}^2$$

Always include the correct units
e.g. cm^2 , mm^2 , m^2
