

# Bowden House School

## Mission Statement

We aim to encourage the belief that learning is a life-long process by creating a teaching and learning environment which engages, inspires and challenges every student to develop to their full potential. We are committed to a whole school approach in improving our students' academic, social and emotional well-being, empowering them to expand their confidence and resilience to prepare them for future challenges in today's diverse and multi-ethnic society.

## Vision Statement

Our school is a nurturing, learning community where excellence is expected of everyone. The vision for our students is to embrace the ethos of We not Me.

To think about others before themselves and encourage them to develop empathy and social responsibility
