

Student & Family Support Co-Ordinator

Bowden House School regards partnership with Parents and Carers as integral to the development of the young people for whom they share responsibility.

Esme Anderton is our **Student & Family Support Co-Ordinator** and she will liaise and work with Parents/Carers, Local Authority Teams, doctors, dentists and CAMHS, to name but a few, to maintain a high quality communication and support programme to create a unified and positive response to young people's needs.

Esme will co-ordinate all students' admissions into Bowden House School.

She will maintain a close eye on all new students and where necessary use her experience to provide extra support to students (and families/carers) who are experiencing additional difficulties.

As part of our process to support Parents and Carers, Esme is always reachable by phone or email; she is your first point of contact.

Esme organises *Parental Drop-in* sessions in your local area.

The *Drop-ins* are informal and positive, they give parents and carers an opportunity to meet with each other, and over refreshments, discuss and/or share strategies or news.
